Presenting problem

Syncope.

History

Émilie Olivier is a 64-year-old man admitted with syncope. He or she had been unwell for about a week. There is no recent travel. Examination on admission was unremarkable apart from the findings listed below; investigations were requested as in the plan.

Allergies

No known drug allergies.

Medicines before admission

Medicine	Dose	Frequency
Paracetamol	1 g	when required

Examination

Alert and orientated. Chest clear. Abdomen soft and non-tender. No peripheral oedema. Heart sounds normal.

Plan

- Observations four times daily
- Blood tests as per ward round

Admitting clinician: Dr Camille Vasseur, registrar.
