ROUSSEL Simone | DOB 14/07/1957 (F) | MRN 4465730 | Outpatient

CT chest - radiology report

Patient	ROUSSEL Simone
Date of birth / sex	14/07/1957 / F
Age	68 years
MRN	4465730
Examination date	14/03/2026
Radiologist	Dr Ines Carvalho

Technique and comparison

Volumetric CT of the chest without contrast, 1 mm reconstructions. Previous examination: none available at this hospital.

Findings

Solid nodule of the right upper lobe, longest axial diameter 9 mm. A second solid nodule of the left lower lobe measures 4 mm and is unchanged from previous imaging. No pleural effusion. No enlarged mediastinal or hilar lymph nodes. The visible upper abdomen is unremarkable.

ROUSSEL Simone | DOB 14/07/1957 (F) | MRN 4465730 | Outpatient

Impression

Right upper lobe solid nodule, 9 mm. 4 mm left lower lobe nodule, stable. See the pulmonary nodule follow-up guideline for the recommended action.
