TESSIER Bernard | DOB 25/01/1968 (M) | MRN 4487715 | Surgery 2B

Operation note

Patient	TESSIER Bernard
Date of birth / sex	25/01/1968 / M
Age	58 years
MRN	4487715
Date	17/11/2026
Surgeon	Mr Olivier Brun

Procedure

Laparoscopic cholecystectomy for symptomatic gallstones.

Findings

Thick-walled gallbladder with adhesions to the omentum; the critical view of safety was obtained. No bile spillage.

Closure and plan

Port sites closed with absorbable sutures. Day-case pathway with discharge the same evening if recovery is uneventful. Antibiotic prophylaxis was given by the anaesthetist; see the anaesthetic record.
