BENALI Nadia | DOB 20/02/1985 (F) | MRN 4474409 | Medicine 3A

Discharge summary

Patient	BENALI Nadia
Date of birth / sex	20/02/1985 / F
Age	41 years
MRN	4474409
Admission / discharge	10/11/2026 / 12/11/2026
Consultant	Dr Hélène Roux
GP	Dr Pascal Garnier

Diagnosis

Pyelonephritis treated with intravenous then oral antibiotics; fatigue under investigation.

Course

Fever settled within 48 hours. Renal ultrasound normal. Fatigue and weight gain prompted thyroid and vitamin D testing on the day before discharge.

Results pending at discharge

Test	Sample date
Blood culture, set 2	11/11/2026
TSH	11/11/2026
25-OH vitamin D	11/11/2026

The discharging consultant remains responsible for these results (see the discharge and transfer of care policy).

Medicines on discharge

Medicine	Dose	Duration
Cefalexin	500 mg three times daily	until 17/11/2026
